REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: Claims 2 and 17 have been canceled. Claims 24-26 have been added. Claims 1,3-16,18-26 are pending.

The rejection of claims 2,6,11,12,17,19,22 under 35 USC 112, 2nd paragraph has been dropped as the claims have been canceled and/or amended.

The closest art is WO 97/44407 published November 27, 1997. However, the present application claims priority to Italy RM97A000653 filed October 28, 1997; that resulted in PCT/EP98/06804 filed October 27, 1998; that resulted in the present application. Thus, the present application's priority date of October 28, 1997 antedates the reference date of November 27, 1997 making the reference not applicable as prior art. The PCT/EP98/06804 is a translation of the Italy RM97A000653. Thus, the record contains a valid translation of the priority document.

Novelty resides in the extraction being carried by percolation and the concentration of the tannin being carried out by nanofiltration with spiral wound membranes. Note the comparative example in the specification where a tubular membrane gave unsatisfactory results. Thus, the prior art neither teaches nor suggests the claimed process of extracting and concentrating tannin comprising concentration of percolated solution containing tannin by nanofiltration with spiral wound membranes selected from polyethersulfonic or polyamidic membranes.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
